STATE REFORM SCHOOL.

Quarterly Report of Superintendent Hendricks.

Superintendent R. J. Hendricks, of the state reform school, yesterday submitted to the board of trustees his report of the conduct of that institution for the second quarter of the current year. It is as follows:

POPULATION.
We have 247 boys on the rolls, there being at the close of the quarter, June 30th, 123 in the school. We had at the beginning of last quarter 126 boys. Received during the quarter 17, of which 13 were by first commitment and four returned from parole.

We paroled nineteen boys during the quarter and one died, leaving us on June 30th, as stated before, 123 boys. Henceforth the number out on parole will continually grow proportionately larger than the number in school. The paroled boys are generally doing well.

FINANCIAL.
We expended during the quarter from the general fund \$4,060.67, and from the improvement fund \$2,935.96.

There have been expended by the penitentiary so far \$1,392.20 of the appropriation of \$5,000. The labor is being performed by convicts, using Marion county's rock crusher in making the road material. Of the money thus far expended some \$400 have been applied upon county roads running through state lands, besides considerable labor contributed by the different institutions.

The expenditures from our two funds were as follows:

Total.....	\$2,935 96

PUNISHMENTS.
During the quarter we had twenty cases of corporal punishment. We have had no cases of solitary confinement for two years or more.

THE OFFICERS.

The various officers of the institution are performing their duties and conducting their different departments in a satisfactory manner.

The lower school grades have not been given any vacation at all this year. The other boys are now spending the whole day helping with the crowding farm work, chopping wood, etc. Prof. Robb, principal of the schools has a force of boys helping prepare the winter's wood, in the timber.

ELECTRIC LIGHTING.

I wish to again call attention to the danger from fire by reason of burning some sixty coal oil lamps in our buildings. Knowing the irresponsible character of many of our charges, who must be depended upon largely to attend to their lamps, they are a source of continual dread.

FOR PAROLE.

I respectfully ask for authority to parole, so soon as suitable places can be found for them: Wm. Huntley, Adren Chamberlain, Harold Townsend, James Huntley, Perry Townsend.

Think It Over.

Have you ever heard of a medicine with such a record of cures as Hood's Sarsaparilla? Don't you know that Hood's Sarsaparilla, the One True Blood Purifier, has proved over and over again, that it has power to cure, even after all other remedies fail? If you have impure blood you may take Hood's Sarsaparilla with the utmost confidence that it will do you good.

Hood's Pills assist digestion. 25 cents.

NOTICE TO PROPERTY OWNERS.—Acting under instructions from the city council I am required to see that the streets and alleys of the city be cleared of all rubbish and refuse by the abutting property owners. Property owners will take notice and clean up the streets. In the event that the property owners fail to so clean up the streets and alleys I am instructed to perform such work and charge the same to them.

IN FAVOR OF DEFENDANT.

Such Was Decision in Wagon-Townsend Seduction Case.

At 4 o'clock Wednesday afternoon before Recorder Edes began the trial of Arthur Townsend charged with seduction, the complaining witness being Maude Wagon, of North Salem. The court room was cleared of all persons except principals and witnesses in the case and members of the press. The state was represented by Acting District Attorney J. H. McNary, assisted by W. H. Holmes.

Townsend employed Wm. Kaiser as attorney. The principal witness for the state was the girl who was placed upon the stand and made a statement. Several letters were also introduced as evidence. At 6 o'clock an adjournment was taken for supper and at 7:30 court was again called and the counsel for state and defendant began their arguments. At 10 o'clock Recorder Edes announced he would take the matter under advisement until 10 a. m. today when he discharged the defendant. "The evidence produced in the trial was not sufficient to justify me in binding the defendant over to the grand jury at an additional expense to the county over \$100," said Recorder Edes.

A NEW CHURCH.—The people of East Salem who have been identified with the Central Chapel Movement the past few years, are taking steps to secure a lot and erect a tabernacle for a permanent church home. They expect to locate it somewhere south of State street in the neighborhood of the electric car house, and the Union Sunday school as well as the church organization will use it for services.

Condensed Testimony.

Chas. B. Hood, Broker and Manufacturer's Agent, Columbus, Ohio, testifies that Dr. King's New Discovery has no equal as a cough remedy. I. D. Brown, Prop. of St. James Hotel, Ft. Wayne, Ind., testifies that he was cured of a cough of two years standing, caused by Dr. King's New Discovery. B. F. Merrill, Baldwinville, Mass., says that he has used and recommended it more than any doctor, because it always cures. Mr. Hemming, 222 E. 25th St., Chicago, always keeps it at hand and has no fear of Croup, because it instantly relieves. Free Trial Bottles at Fred A. Legg's Drug Store.

The dealer who says, "I have no Hoe Cake soap," practically admits that he does not sell first quality goods. If he says he has something "just as good" you will know at once that he is trying to sell you an inferior article. There is more clothing destroyed by poor soap than by actual wear, as the free alkali rots the cloth. Hoe Cake contains neither free alkali nor worthless filling.

Word has just been received from Canyon City, says the Baker City Herald, of a fight between the men of the 12c country and the men of Crook county, in which the sheepmen and one cattleman were killed. The particulars of the fight were not received, further than that it was a conflict over the range of the South Fork country. Another senger brings the news that it was same sheepman that had their wagons and provisions destroyed over several weeks ago.

It is reported that a herd of 110 were seen north of Mary's peak, near Corvallis, quite recently. This is something quite unusual, as elk are being very scarce in the United States. Oregon, perhaps, has as many of the noble animals in her forests as any other state.

A fire accidentally started, completely destroyed one hundred cords of wood on the farm of Chas. Smith, miles west of Corvallis.
